

Technology built for the mission

WHO WE ARE

Sierron Corporation is a technology company focused on helping government organizations transform how they serve, operate, and deliver their missions. We connect digital strategy, human-centered experience, artificial intelligence, data, software engineering, cloud, and cybersecurity to solve complex technology challenges and build solutions that are modern, intelligent, resilient, and built to evolve.

CORPORATE INFORMATION

Legal Name	Sierron Corporation
UEI/CAGE	DQ3KJKR52DZ4 \ 256D9
NAICS	541511 · 541512 · 541513 541519 · 518210 · 541611 611420 · 611430 · 561320

Core Capabilities

SIX CAPABILITIES. ONE MISSION.

01 Digital Strategy & Transformation

Strategize → Transform → Sustain

Translate mission priorities into actionable transformation initiatives and sustainable outcomes.

Digital Strategy • Maturity Assessments • Process Transformation • Product Strategy • Agile Transformation • Change Enablement

02 Digital Experience

Research → Design → Empower

Create intuitive, accessible digital experiences centered on the people who use and deliver services.

HCD • User Research • UX/UI • Service Design • Journey Mapping • Section 508 & WCAG

03 AI & Data

Build → Intelligence → Operationalize

Build trusted data foundations and turn information into intelligence that improves decisions and operations.

Generative AI • AI/ML • AI Agents & RAG • Data Engineering • Predictive Analytics • MLOps & Governance

04 Digital Engineering

Modernize → Build → Scale

Engineer secure, resilient applications and digital platforms designed for continuous change.

Application Modernization • Full-Stack Engineering • Cloud-Native Apps • APIs & Microservices • DevSecOps • Quality Engineering

05 Cloud & Platforms

Architect → Automate → Operate

Create secure, automated technology foundations for mission-critical applications, data, and AI.

Cloud Architecture • Hybrid & Multi-Cloud • Platform Engineering • IaC • Kubernetes • SRE & Observability

06 Cybersecurity

Govern → Engineer → Defend

Protect systems, identities, data, and digital services throughout their lifecycle.

Zero Trust • IAM • Cloud Security • GRC & RMF • Threat Detection • Incident Response

Mission to Outcome

UNDERSTAND

Mission, users & environment

DESIGN

Strategy, architecture & experience

BUILD

Applications, data, AI & platforms

SECURE

Security, privacy & governance

OPERATE

Automate, monitor & improve

Why Sierron

Mission-Driven Solutions

We begin with the mission need, then apply the right technology to achieve the outcome.

Intelligence Built In

Use AI, data, and automation where they create measurable value.

Secure by Design

Consider security, privacy, resilience, and governance throughout delivery.

Government-Ready Delivery

Designed to support the security, accessibility, interoperability, governance, and operational demands of Federal and State technology environments.
